REMARKS.

In closing our labors for the year as selectmen, we will briefly say that we have nothing to commend ourselves for in the discharge of our stewardship, and nothing to palliate for. It has been our aim not to draw any orders for the disbursement of the public funds only as voted by the taxpayers and required by law. Included in the collector's bill of abatement is the sum of twenty-six dollars and fifty cents for public water, as required by law. Heretofore the public water has been paid for by orders drawn on the treasurer, for which there was no law for doing. There was a decrease in the Savings Bank tax this year of twelve hundred and thirty-one dollars, in consequence of a change in the law, which should be taken into consideration by the taxpayers if they wish to diminish their indebtedness.

Respectfully submitted,

WM. H. LYNDE,
E. A. KINGMAN,
R. W. BOYCE,
Selectmen of Winchester.

The amount appropriated for painting the fence being insufficient to complete the work, we have caused the front and two sides to be painted, and left the rear end unpainted. We recommend that the sum

of \$30 be appropriated to complete the work. We also think the best interest of the town would be subserved by painting the whole fence another coat this year, which would cost about \$225.

The sum raised for care was not sufficient to do all we would like to have done. There was a large amount of work which it seemed to us should be done, which will not be required the coming season, while some work neglected for want of funds, should be done this year. In our judgement, the sum raised for care and improvements should be \$250 in place of \$300 raised last year. We found that some parts of former additions had not been surveyed and plans made. We have caused this work to be done, and the town now has a complete plan of all such additions.

Respectfully submitted.

Report of the Trustees of the Public Library.

The trustees of the Public Library, in presenting this their fourth annual report to the town, desire to call the attention of the voters of the town to the ever increasing value, as an educationl factor, of this institution; year by year it is noticed by those in position to observe. that the books are more and more consulted for such information as is not readily obtainable elsewhere; at the same time there has been no dimunition of the interest of those who read for present amusement only. We would also call attention to the desirability of in some manner providing that the reading rooms may be opened evenings and supplied with such magazines, newspapers and other accessories as would render them of practical advantage and benefit. We have purchased no new books during the year, as the work of completing the library records were, and are yet, incompleated, but we have now in our treasury the sum of \$89.75, which it is proposed to devote to such purchase. The library has been increased, however, by a large number of volumes by donations. There still remains for the completion of the library building the same matters and things that we called your attention to in our last re-

port, and we would further suggest that at no distant day the outside wood work of the building will require repainting.

Report of the Board of Health.

To the Selectmen:

GENTLEMEN.—We have the honor to submit the report of the Board of Health for the current year:

We have had some work to do in purifying wells in the center village, which had become impure because of unsanitary surrounding. One of these, in particular, has been of considerable trouble in years past, and the means then taken to purify it having proved unavailing, the water was sampled and submitted to analysis by the State chemist, the result showing such impure water that we felt obliged to condemn the well and have it filled up and another made in a new place, which up to date seems to be satisfactory. Another one has been cleansed and the water now seems pure, but we are in doubt as to whether the improvement will be permanent. We are afraid other wells are in danger of becoming polluted, and advise the careful looking to them by property owners, for to impose impure water supply upon a tenant is very reprehensible. Since December, scarlet fever has been very prevalent, and the community is not wholly free from it. Fortunately, it has been of a very mild type and no deaths have yet resulted from it. We say this because of the disregard in many cases of the terms of the quarantine which the law imposes. The red

placard posted at the entrance of the houses where the disease is located means that the family are to remain secluded and persons not necessary for the care of the sick are to keep away until the attendant physician pronounces the danger of contagion is past. Disregard of these conditions subjects the offender to a legal penalty at the discretion of the board of health. Much pressure has been brought to cause us to order the closing of the schools because of the prevalence of this disease, but as no particular precaution seemed to be taken by those most desirous of this measure, to refrain from attending the many public and private social gatherings where the danger of contagion is far greater than it could be in the schools, we have not understood it to be our duty to deprive anyone of the advantages of the schools, for unless we should close the prayer meeting, the church social, the wandering shows who occupy the town hall and set a constant guard over the places where the disease is located, the closing of the schools would serve no practical purpose in staying the disease, and prove a hardship to many.

Respectfully submitted.

G. W. PEIRCE,

A. H. TAFT,

WILLIAM F. FLINT,

Board of Health.
